1/3/2023	Finalize all page layouts and begin to add them to the website	5 Hours	EM, LF, SD, MS, GG	We decided on the color scheme for our graphics to take a break from the dark and stary space trope.
1. 1/6/2023	Create necessary CSS and JS files	6 Hours	EM, LF	Buttons, carousels, and other small quality of life additions now work.
2. 1/12/2023	Begin working on backend (concept for states)	3 Hours	EM	After much searching, and failed attempts using both python/flask, and php frameworks, we decided to use firebase to give our website a simple backend to give the website a more authentic experience.
3. 1/18/2023	Review and submit website for regionals	4 Hours	EM, LF, SD, MS, GG	After submitting, we came up with the following plans for states: Full text/graphic overhaul, better mobile layouts/design, and a fully functional backend
4. 2/23/2023	Begin states revisions, starting with graphics	3 Hours	LF, MS, GG	Added blue highlights to contrast the standard orange backgrounds
5. 2/27/2023	Add firebase to project, begin nodejs scripting	4 Hours	EM	After getting over the hill of firebase configuration, we were able to set up authentication fairly easily.
